Sound Forge is the best audio editor for both professional and hobbyists with a wide variety of effects and tools that sound like they were developed specifically for the task.Q: build.gradle for a Flutter, incorrect path I want to create a Flutter mobile app and have followed the instructions at but am missing something when I try to build. I tried my best to give the right paths, but the result is always "Success! The APK files have been generated!" and the warnings that I don't have the right gradle files are not resolved. Could someone help me to find where the files are located? I use Windows 10. build.gradle (project) classpath 'com.android.tools.build:gradle:3.4.2' dependencies { classpath 'com.google.gms:google-services:3.4.2' } build.gradle (app) group 'com.web3demo' version '1.0' buildscript { repositories { google() jcenter() maven { url " name 'Google' } } dependencies { classpath 'com.android.tools.build:gradle:3.4.2' } } allprojects { repositories { google() jcenter() maven { 1cb139aded
